Nullify the UN, WHO, & WEF in Oklahoma With SB 762

Legislation has been introduced in the Oklahoma Legislature to strengthen the state's existing law nullifying the United Nations (UN), World Health Organization (WHO), and World Economic Forum (WEF). ***It is imperative that legislators enact this bill and protect our God-given freedoms!***

Senate Bill No. 762 (SB 762) is authored by Senator Micheal Bergstrom (R-Adair).

If enacted, SB 762 would strengthen an existing law, signed into law by Governor Kevin Stitt in 2024, that prevents policies or mandates from the UN, WHO, or WEF from being enforced in Oklahoma. The bill would clarify that "No rule, regulation, fee, tax, policy, or mandate of any kind of the World Health Organization, United Nations, or the World Economic Forum shall be enforced or implemented by the state or its political subdivisions."

Additionally, SB 762 would declare:

> C. The state and its political subdivisions:
>
> 1. Shall resist all efforts by the World Health Organization, the United Nations, the World Economic Forum, and other international governmental and nongovernmental organizations to exercise jurisdiction within this state; and
>
> 2. Shall not cooperate with efforts by United States federal authorities to implement rules, regulations, and mandates originating from such international governmental and nongovernmental organizations that infringe on the sovereignty of this state and the individual freedoms of the state's citizens or residents.

The policies emanating from the UN, WHO, and WEF are antithetical to the American form of government. For example, the UN's Agenda 21/2030 plan seeks total control and regimentation of the entire planet, and prominent examples of its implementation include the global war on farmers, carbon-capture pipelines, and the transition toward "green" energy. The global body's upcoming "Summit of the Future" will also advocate more power for the UN.

Furthermore, the WHO is planning a major power grab to allow it to impose draconian restrictions, such as vaccine passports and other "health" measures, at a global level. This comes in the form of a proposed global "pandemic treaty" and in possible amendments to the International Health Regulations (IHR). In addition to advancing medical tyranny, these changes would empower international bureaucracy at the expense of American sovereignty.

SB 762 is firmly grounded in the text of the U.S. Constitution. Specifically, Article VI binds state legislators — along with members of Congress and judges — to their oath to support the U.S. Constitution.

Article VI also states, "This Constitution, and the Laws of the United States *which shall be made in Pursuance thereof* … shall be the supreme Law of the Land." (Emphasis added.) State legislators are required to uphold and implement only those laws that are "made in Pursuance" to the Constitution. Any laws not "made in Pursuance thereof" are therefore *not* the supreme Law of the Land and, as such, state legislators are under no obligation to enforce or carry out their provisions. Instead, they should interpose, or nullify, such laws within the boundaries of their state.

This stipulation applies to the treaty-making power. Treaties (including U.S. membership in the UN and WHO) must also be subject to, and bound by, the limitations of the Constitution.

In a letter dated September 7, 1803, then-President Thomas Jefferson wrote, "I say the same as to the opinion of those who consider the grant of the treaty making power as boundless. If it is, then we have no Constitution." This was further affirmed by the Supreme Court of the United States, in *Reid v. Covert* (1957).

Urge your state senator to support SB 762 and to push back against all other unconstitutional laws at every level of government.
