

Nullify the WHO & CDC in Wyoming With HB 141

Legislation has been introduced in the Wyoming Legislature to nullify the unconstitutional World Health Organization (WHO) and Centers for Disease Control and Prevention (CDC). ***It is imperative that legislators enact this bill and protect our God-given freedoms!***

House Bill No. HB0141 ([HB 141](#)) is sponsored by Representative Ann Lucas (R-Laramie County) and co-sponsored by 10 representatives and one senator.

If enacted, HB 141 would prevent any edicts or recommendations from the WHO or CDC from being enforced in Wyoming. The bill declares:

The United States centers for disease control and prevention and the world health organization shall have no jurisdiction in Wyoming and any requirements, mandates, recommendations, instructions or guidance provided, promulgated or established by either organization shall not be binding in this state to justify any mask, vaccine or medical testing requirements for COVID-19 and any variant thereof and shall have no force or effect in Wyoming.

HB 141 comes as **the WHO is [planning a major power grab](#) to allow it to impose draconian restrictions, such as vaccine passports and other “health” measures, at a global level.** This comes in the form of a proposed global “[pandemic treaty](#)” and in possible [amendments](#) to the International Health Regulations (IHR). In addition to advancing medical tyranny, **these changes would empower international bureaucracy [at the expense](#) of American sovereignty.**

HB 141 is [firmly grounded](#) in the text of the U.S. Constitution. Specifically, [Article VI](#) binds state legislators — along with members of Congress and judges — to their oath to support the U.S. Constitution.

Article VI also states, “This Constitution, and the Laws of the United States *which shall be made in Pursuance thereof* ... shall be the supreme Law of the Land.” (Emphasis added.) State legislators are required to uphold and implement only those laws that are “made in Pursuance” to the Constitution. Any laws not “made in Pursuance thereof” are therefore *not* the supreme Law of the Land and, as such, state legislators are under no obligation to enforce or carry out their provisions. Instead, [they should interpose, or nullify](#), such laws within the boundaries of their state.

This stipulation applies to the treaty-making power. Treaties (including U.S. membership in the WHO) [must also be subject to](#), and bound by, the limitations of the Constitution.

In a [letter](#) dated September 7, 1803, then-President Thomas Jefferson wrote, “I say the same as to the opinion of those who consider the grant of the treaty making power as boundless. If it is, then we have no Constitution.” This was further affirmed by the Supreme Court of the United States, in [Reid v. Covert](#) (1957).

Urge your state representative and senator to nullify the WHO and CDC with HB 141 and to push back against all other unconstitutional laws at every level of government.
