## Stop Tyrannical UN Gun Control Treaty

The Biden administration is seeking to join and ratify the United Nations Arms Trade Treaty, which would severely infringe upon the Second Amendment.

In March 2013, the Arms Trade Treaty's (ATT) [text and tyrannical provisions](#) were released, and the UN General Assembly [adopted](#) it the following month — with the U.S. voting in favor. Then-Secretary of State John Kerry [signed](#) the treaty on behalf of the U.S. on September 25, 2013.

If ratified, the ATT would decimate the Second Amendment's protections. Among its other [provisions](#), it would deny individuals the fundamental right to keep and bear arms, and its provisions would regulate all firearms, firearm components, and ammunition. Furthermore, it requires countries to establish invasive [firearm registries](#) that allow the government to know exactly who owns a firearm and the model they own. **To enforce the treaty, countries are allowed to engage in [civilian disarmament](#), and the UN is allowed to assist countries in their disarmament schemes.**

A letter from 37 U.S. senators delivered to Biden on September 28, 2021, [elaborated](#) on the ATT's dangerous provisions:

As-in 2013, we remain concerned by the many troubling aspects of the ATT and its impact on American sovereignty and constitutional protections. The vague language of the ATT makes American commitments uncertain, the most concerning of which is the lack of protections for lawful gun ownership which threatens the rights afforded to Americans under the Second Amendment. Further, with an amendment process that only requires a 3/4 vote for approval, more intrusive provisions could be applied in the future; legally obligating the United States to comply with international agreements without consent from the Senate.

The ATT [went into effect](#) on December 24, 2014. However, as the U.S. Senate had not ratified the treaty, it had no legal bearing in the United States. Nonetheless, **the Obama administration advocated for its**

ratification and [called it](#) “a tool that we can use, energetically and effectively.” The Left’s goal of using the ATT to disarm the American people was temporarily deflated when President Donald Trump [withdrew](#) the U.S. from the treaty.

However, the Biden administration [wants to rejoin](#) the Arms Trade Treaty. The Biden administration sent the State Department’s deputy director for conventional arms threat reduction, William Malzahn, to the 7th Conference of States Parties to the Arms Trade Treaty. At the conference, Malzahn [announced](#) the administration’s support for the treaty. Furthermore, the subversive [Council on Foreign Relations](#) listed the treaty as one that Biden could [potentially rejoin](#).

Of course, a treaty can only be ratified if two-thirds of present members in the U.S. Senate agree to it. Additionally, treaties [never](#) override the Constitution, a fact the Founding Fathers strongly held to. For example, President Thomas Jefferson stated on September 7, 1803, “I say the same as to the opinion of those who consider the grant of the treaty making power as boundless. if it is, then we have no constitution.” Of course, Biden, who has taken multiple actions — including his vaccine mandates and eviction moratoriums — despite admitting he had no constitutional authority to make them, likely will not allow this to stop him from implementing the ATT.

Joe Biden and his administration have already made their gun control aims clear. Among other anti-Second Amendment actions, Biden signed [executive orders](#) to ban pistol braces and so-called “ghost guns,” called for [banning](#) AR-15 rifles, and nominated [anti-Second Amendment](#) activist [David Chipman](#) to lead the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF).

It is imperative that this unconstitutional treaty be rejected.

**ACT NOW: Tell your U.S. senators to reject ratification and to fight all attempts to sneakily implement the treaty and infringe upon our God-given rights.**
