The border crisis continues to escalate at an astonishing rate. Take the month of June of this year for instance, with more than 178,000 migrants who illegally crossed our southern border from Mexico. That brings the total number, this year, to 1,076,242 illegals who were caught!

Last week, Tucker Carlson aired a bombshell segment about how the Biden administration has been covertly ferrying illegal migrants all across the country via the U.S. Air Force. The information came from a whistleblower at Laughlin Air Force Base, in Del Rio, Texas, where the migrants are frequently being flown from to a city or suburb near you and at the expense of your tax dollars of course.
