DEI: MARXIST POISON INFECTING AMERICA

For many decades, Marxist socialists have been carrying out a "long march through the institutions," taking total control of academia, corporations, government, and more.

We see this with "Diversity, Equity, and Inclusion" (DEI) and "Critical Race Theory" (CRT). Ultimately, they seek to overthrow Western civilization and the American form of government.

DEI and CRT were created by members of the Frankfurt School, a group of radical, Marxist socialists, including Herbert Marcuse and Rudi Dutschke, who were inspired by communists such as Mao Zedong.

THE GOAL OF DEI AND CRT IS TO IMPLEMENT COMMUNISM BY INDOCTRINATING THE NEXT GENERATIONS WITH MARXIST IDEOLOGY.
