What Degree of Madness: Madison's Method to Make America STATES Again

POLITICS

ARTICLE V CONVENTION **WILL IT WORK?**

Article I.
All legislative Powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.
The House of Representatives shall be composed of Members chosen every second Year by the People in each State, and the Electors in each State shall have the Qualification for Electors in that State.
Representatives and direct Taxes shall be apportioned among the several States which may be included within this Union, according to their respective Numbers, which shall be determined by adding to the whole Number of free Persons, including indentured Servants, but not including Indians not taxed, three fifths of all other Persons.

America has not had a Constitutional Convention since 1787. The result then was a blessing. But holding a new convention today could end up being disastrous for the nation. This article explains why.

**** MAKE AMERICA ****

STATES AGAIN

For too long, the federal government has usurped power far beyond its constitutional limits — threatening our system of federalism and state sovereignty.

America will remain the land of the free and home of the brave only if the states stand up against federal abuses and say enough is enough.
