- [Take Action](#)

Do we live in America or a Communist dictatorship? When is it ok for governments to force the closure of businesses? Or to forcibly close places of worship? When will this end and what will happen when the virus flares up again this fall?

The over-the-top response from all levels of government to the COVID-19 coronavirus has betrayed the very foundations of our Republic. Rights have been trampled.

During the lockdown of America, schools, businesses, churches, and individuals are being bullied by government based on an unwarranted emergency. Will we get those rights back? That depends on you!

### Your Rights Are Not Negotiable!

Your God-given rights cannot be revoked by government via any emergency loophole! The Declaration of Independence states "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed..."

### Americans Must Respond

Given the absolute hype by the media and government at every level, most Americans are submitting to these draconian orders. After all, Americans are ruled by laws, so we willingly want to comply. But when the government tramples our rights, their orders must be met with swift and Constitutional pushback from the proper authorities.

# JBS Launches "Freedom is the Cure" in response to COVID-19 Government Overreach

In response to the unconstitutional overreaches by local, state, and the federal government (such as lockdowns, stay-at-home orders, "social distancing" guidelines, and mandatory mask wearing orders) purportedly to stop the spread of the Wuhan coronavirus (COVID-19), The John Birch Society officially launched it's "Countering COVID-19 Overreach" action project with the motto "Freedom is the Cure" to educate and warn the electorate at-large about what's behind the pandemic and to stop any unconstitutional usurpations of individual freedom.
