STOP AGENDA 21/2030

Agenda 21/2030 Tools at the Ready

The United Nations and its mostly autocratic member regimes have big plans for your life, your children, your country, and your world.... Virtually every national government/dictatorship on the planet met at the 70th annual General Assembly at UN headquarters in New York in 2015 to adopt a draconian 15-year master plan for the planet.... Officially dubbed "Agenda 2030," the UN plot, as its full title suggests, is aimed at "transforming" the world. The program is a follow-up to the last 15-year UN plan, the defunct "Millennium Development Goals," or MDGs. It also dovetails nicely with the deeply controversial UN Agenda 21, even including much of the same rhetoric and agenda. But the combined Agenda 2030 goals for achieving what is euphemistically called "sustainable development" represent previous UN plans on steroids — deeper, more radical, more draconian, and more expensive.
