JBS CEO Art Thompson's weekly news video update for July 28 – Aug. 3, 2014.

In this week's analysis behind the news video, JBS CEO Art Thompson discusses how NAFTA served as the foundation for the Security and Prosperity Partnership of North America (aka the North American Union); how now we're seeing other partnerships being formed with Asian and European nations; how Henry Kissinger said in 1993: "[NAFTA] will represent the most creative step toward a New World Order"; how "partnership" is the new buzzword being used to merge our nation with other nations or groups of nations by means of the Trans-Pacific Partnership and the Transatlantic Trade and Investment Partnership; how the North Atlantic Treaty Organization (NATO) is being expanded without the consent of Congress to include Asia, which means that NATO is being globalized; and how through these various new partnerships the American people are losing their decision-making power over the U.S. military and the U.S. economy.
