The Left Demonizes the Right!

The Left keeps pushing, hoping to get Conservatives to react verbally in the media or even worse, physically. When they do react, the media demonizes them as extremists. Remember the McCloskeys from St. Louis, who waved guns at protestors who were on their property?

Watch Activate America to learn how education and organization, instead of reaction, is the way to go.

Action Items:

Watch the Activate America "[False Flags & Militancy?](#)" episode about how not to play into the hands of the enemy.

[Contact a local coordinator in your area.](#)

Watch the Activate America "[How the Communists Neutralize](#)" episode about how the use of false flags works at destroying the oppositions credibility.
