Globalism has weaponized "free trade" into a pincer movement against sovereignty. Globalist trade schemes, such as GATT, WTO, NAFTA, and the USMCA, are nothing less than steps toward an economic one-world government. This class draws from U.S. Senator George Malone's prophetic warnings to show how Congress surrendered its trade powers, paving the way for supranational rule. The remedy? Local activism, constitutionalists in office, and a resolute "Amexit" from globalist schemes.
