

Were We Right Not to Trust the Science?

Are the millions of people who refused the jab over concerns that it was harmful proving paranoid or correct? We are approaching the two-year mark of the Covid “vaccine” rollout. This episode features a discussion about what we’ve learned about the jab over the last year and a half. Paul Dragu interviews Dennis Behreandt, publisher of [The New American](#) magazine and author of the book [End Game: COVID and the Dark State Quest for Bio-digital Convergence In a Transhumanist World](#).
