NAFTA, even though Trump claims it's been replaced, is very much alive in the new deal: the United States-Mexico-Canada Agreement (USMCA). America's sovereignty and independence is again threatened as portions and chapters are identical to those in the Trans Pacific Partnership (TPP).

As globalists tout of its ability to make a stronger North America and plan to integrate the U.S. economy with Canada and Mexico, action must be taken to prevent a North American Union and an eventual world government.

📞 Call and urge your representative and senators to reject the USMCA in order to save American sovereignty and our hard-working American industry!
