Christian Gomez discusses how YouTube ironically (but unsurprisingly) took down the previous week's episode of JBS Straight Talk about censorship, which showed a clip from America's Frontline Doctor's White Coat Summit in Washington, D.C. of Dr. Stella Grace Immanuel's testimony about her success rate in using hydroxychloroquine. Afterwards, event organizer and speaker Dr. Simone Gold, a 20+ year board certified emergency physician, was also fired from her job.
