JBS CEO Art Thompson's weekly news video update for July 20 – 26, 2015.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses how JBS gave great impetus to the anti-Agenda 21 movement when it got involved in actively opposing Agenda 21 about three years ago; how the Agenda 21 plan is to get the bulk of the people living in the cities in high-rise apartment buildings and not in the country; how recently, in an Agenda 21-related action, the Seattle Housing Commission recommended to the Seattle City Council to have zoning only for multi-family housing and no longer for single-family homes; how America was built on single-family dwellings; and how after five years Dodd-Frank is a failure according to Rep. Jeb Hensarling (R-Texas) in a recent Wall Street Journal article, as shown by the bank failure rate of about one per day.
