LARGEST HUMAN EXPERIMENT?

Are You Part of the Largest Human Experiment?

The Fifth Circuit Court of Appeals strikes again! This time, again on a Saturday, it reaffirmed its stay order from the previous week to stop the Biden administration from implementing a COVID-19 vaccine mandate through OSHA.

The same week our interview with Dr. Robert Malone went viral on Rumble, who called the vaccinations the “largest experiment on human beings in the history of the world.”

Yet, during the same week, 30 Democrats wrote a letter to President Biden encouraging him to impose a vaccine mandate on domestic air travel prior to the holidays. They wrote, “Many Americans remain reluctant to spending extended periods of time in enclosed public

spaces due to the risk of COVID-19 exposure.” They say a mandate would help the tourism and hospitality industries to recover faster.

So, where do you stand on this? Shall we mandate the American people? Perhaps our children, too?

This is where we jump in—in today’s Analysis Behind the News, where we provide the perspective and the plan to save American liberty and independence.
