JBS CEO Art Thompson's weekly news video update for Oct. 26 - Nov. 1, 2015.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses how cheaper gas permits the government to lie about the cost of living and deny increases to social security recipients; how keeping social security payment increases behind the inflation rate makes the elderly more and more beholden to the state; how the federal government does not want the American people to be independent in energy and free of international entanglements; how China is becoming more active in acquiring U.S. oil companies; how those Chinese investors will start to own American oil; how Ryan has been dictating conditions on his acceptance of the speakership of the House; how Ryan will be more of a RINO than is realized now; how Planned Parenthood will stop selling fetal tissue, but keep on supplying it to researchers; and how the free trade deal, the Trans-Pacific Partnership (TPP), is supposed to be about blocking China, however, many of the nations that will be members of the TPP already have, or are negotiating, free trade deals with China.
