JBS CEO Art Thompson's weekly news video update for September 22 - 28, 2014.

In this week's analysis behind the news video, JBS CEO Art Thompson discusses how it is unwise to arm the Kurds due to the high degree of communist influence on their movement; how the recent widely viewed videos of beheadings of Americans and others are being used to whip Americans up in a way that will eventually be harmful to the American people; how we have a pattern of arming our own enemies; how we have a way of changing dictatorial countries into radical, extremist countries; and how what Obama is advocating will end up building the New World Order.
