JBS CEO Art Thompson's weekly news video update for Nov. 16 - 22, 2015.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses how many of the victims of the Paris terrorism would likely have fared better if they'd been allowed to carry guns; how an article at [TheNewAmerican.com](http://www.thenewamerican.com) in January this year entitled, "Amid Terror in Paris, Gun Control Leaves French Defenseless"

(<http://www.thenewamerican.com/world-news/europe/item/19877-amid-terror-in-paris-gun-control-leaves-french-defenseless>), made this same point after the Paris shootings at that time; how The New American posted another article today, "Obama Showers Support on Communist Terrorists in Syria, Iraq" (<http://www.thenewamerican.com/world-news/asia/item/21955-obama-showers-support-on-communist-terrorists-in-syria-iraq>), regarding how the Obama administration is providing U.S. military support for communist-controlled Kurdish forces in Syria and Iraq; how free speech movements on university campuses today are similar to those of the 1960s and have been organized by the same forces, the communists; and how the terrorist attacks in Paris will be used to build the New World Order.
