JBS CEO Art Thompson's weekly news video update for April 13 - 19, 2015.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses how AFL-CIO president Richard Trumka now says he favors the Transatlantic Trade and Investment Partnership (TTIP), which is one of the partnerships that is designed to help build the New World Order; how Obama is expected to drop Cuba from the U.S. listing of terrorist exporting countries; how Obama's meeting with Raul Castro constitutes payback to the Communist apparatus for helping to get Obama elected; how the U.S. can be allied with Iran in some countries and not others because these machinations are part of building the chaos that will regionalize the world on the way towards the New World Order; and how Hillary Clinton's candidacy for president reminds us that we need to be working to elect good candidates.
