FORCING FARMERS OUT!

EU Sells Out Dutch Farmers | JBS News Analysis

One week you're a farmer, the next week the government calls you a polluter and wants you shut down. Sound crazy? Not if you are a farmer in the Netherlands.

To meet the EU mandates on climate goals, the Dutch government can start buying out farmers to reduce nitrogen use. They are looking at taking thousands of farms out of production.

Could it happen here? Watch this episode of JBS News Analysis.
