JBS CEO Art Thompson's weekly news video update for May 26 - June 1, 2014.

In this week's analysis behind the news video, JBS CEO Art Thompson discusses how ex-KGB agent, Anatoliy Golitsyn, revealed in his 1984 book, "New Lies for Old," that the KGB had a plan for a false democratization campaign to make it appear that the communist USSR was dissolving into separate democratic nations, while in reality the communists would still be in control of these nations; how what's happening in Ukraine, where both sides in Ukraine (pro-Russia and pro-Ukraine) are flying the hammer and sickle, is verifying the truth of Golitsyn's predictions; how eyewitness accounts from Libya are providing new information about the Benghazi attack; how there is an intensified media attack on the Koch brothers and the JBS; and how the JBS 1960s stand against the mass medication of the American population by government through fluoridation of public water supplies has been vindicated recently by a new scientific study showing fluoride to be a neurotoxin.
