JBS CEO Art Thompson's weekly news video update for December 3 - 9, 2012.

In this week's news video update, JBS CEO Art Thompson discusses: the U.S. government's attitude toward the elderly is leading to euthanasia; Iraq is allowing the flow of arms from Iran to Syria; and under provisions of the Open Skies Treaty, Russians are flying inspection missions over U.S military bases in America, which may be expanded to environmental inspection missions over our entire nation in the future.
