# REPUBLICANS ARE GOING GREEN?

Climate change is in the news again, and this time it's not AOC talking about her Green New Deal. Actually, it's the Republican leadership in the House of Representatives releasing a plan to battle climate change. Their agenda promotes stopping human-caused climate change, focuses on carbon-capture technology and tree planting to offset carbon emissions.

We'll look at this pathetic and unconstitutional move in this episode of Analysis Behind the News, where we provide the perspective that you can use to help save American liberty and independence.
