JBS CEO Art Thompson's weekly news video update for Nov. 9 - 15, 2015.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses how if you liked Agenda 21, you'll love the Trans-Pacific Partnership (TPP), which has been called by some, including Senator Jeff Sessions, a Pacific Union; how an article in USA Today last week, "Free Trade Can Help Protect Our Environment," pointed out that the TPP will use sanctions to enforce environmental regulations; how the USA Today article called the TPP "the greenest trade deal ever" and said the trade pact has just as much to do with protecting the environment as it does with trade; how the TPP Commission (Chapter 27 of the TPP Agreement at <https://ustr.gov/sites/default/files/TPP-Final-Text-Administration-and-Institutional-Provisions.pdf>) will be set up as an EU in the Pacific; how the TPP would eventually include China; how China has been buying up radio stations in the United States, even though this is illegal; and much more.
