JBS CEO Art Thompson's weekly news video update for February 3 - 9, 2014.

In this week's analysis behind the news video, JBS CEO Art Thompson discusses how the myRA program mentioned by President Obama in his State of the Union Address last week is reminiscent of the Social Security program introduced by another president in the 1930s; how the IMF is laying the groundwork for global wealth confiscation; how the voters must insist that their representatives uphold the Constitution rather than support changing the Constitution with a Balanced Budget Amendment (BBA), which won't solve the fiscal problems we have anyway; how anyone wanting to change the Constitution can't do so without taking into account the vast numbers of treaties, trade agreements, partnerships, and other foreign entanglements our nation has committed to; and how come the people who want a convention to change the Constitution don't talk about these issues — which points to a hidden agenda.
