JBS CEO Art Thompson's weekly news video update for December 2 - 8, 2013.

In this week's analysis behind the news video, JBS CEO Art Thompson discusses how the U.S. Navy is using "biofuel" to power some of its ships that costs \$26 per gallon; how the European Union is considered by Gorbachev to be the new European Soviet; how The John Birch Society is working to stop the merger of the United States with the European Union by preventing congressional approval of the Transatlantic Trade and Investment Partnership (now being negotiated); how nearly 14% of the drivers in the United States are uninsured, which indicates there'll be widespread resistance to signing on for ObamaCare.
