JBS CEO Art Thompson's weekly news video update for April 27 - May 3, 2015.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses how China is building a trade bloc in Asia with Pakistan and many other nations; how Obama is working on a trade partnership agreement (the Trans-Pacific Partnership) that would lead to economic integration of our nation with eleven Pacific Rim nations (including Mexico and Canada), but that would also allow unrestricted immigration into the United States from these nations; how liberals and communists are rallying to support the teachers that have been caught cheating on their students' scores on standardized tests; how Democratic presidential candidate Hillary Clinton has come out in favor of a campaign finance reform constitutional amendment; and how could liberals and conservatives be working together on getting a constitutional convention called and expect to get a result that would satisfy both sides.
