JBS CEO Art Thompson's weekly news video update for Dec. 29, 2014 to Jan. 4, 2015.

In this week's analysis behind the news video, JBS CEO Art Thompson discusses how Obama's recent recognition of Cuba will renew communist subversion within the United States; how Obama's administration has numerous ties to the communist Cuban government; how BRICS (Brazil, Russia, India, China, and South Africa) and the Shanghai Cooperation Organization are part of a growing alliance world-wide of communist nations to be a counterbalance to the West; how these alliances are actually dividing the world in preparation for the perpetual wars between three regions of the world as predicted by George Orwell; and how he recommends against viewing the movie, "The Interview," on the basis that it is socially debilitating.
