

## WHY END THE FED? JBS NEWS ANALYSIS

The European Union just announced plans for a central bank digital currency to be implemented at the end of next year. A member of the European Central Bank said this digital euro is the future of money. But rest assured, it would not take the place of other forms of money, he claims.

How much do you trust digital currency? Or a better question is how much do you trust the government to manage your money, including your access to it?

We'll look at just how well our own federal government has managed money and show you a few examples of why this move should be very concerning for anyone who cherishes their freedom. All this in today's episode of Analysis Behind the News.
