**GREEN**

*NEW DEAL*

**BUILDS**

**NWO**

The Green New Deal, which apparently is the brainchild of Rep. Alexandria Ocasio-Cortez, would commit American industry and all American citizens with a task of achieving net-zero greenhouse emissions in 10 years, with no less commitment to climate change than what the country undertook to mobilize in World War II.

We demonstrate what that will look like in this episode of Analysis Behind the News.
