JBS CEO Art Thompson's weekly news video update for April 20 - 26, 2015.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses how the Capitol lawn gyrocopter pilot intended to publicize the need for a constitutional convention to propose a campaign finance reform amendment; how Pakistan and China have just agreed to a \$46 billion Economic Corridor Plan to unite their energy and infrastructure projects and what this implies for the transfer of military secrets between the two nations and the building of the New World Order; and how the newly unveiled fast-track bill supposedly requires the President to consult with Congress at key points during negotiations of new trade deals when in reality he has already extensively negotiated the Trans-Pacific Partnership and the Transatlantic Trade and Investment Partnership.
