JBS CEO Art Thompson's weekly news video update for Feb. 1 - 7, 2016.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses the deportation of Syrian refugees in the Scandinavian countries and in Germany. Thompson also discusses the situation in Oregon and across the West with the federal government taking land away from ranchers and farmers by declaring certain areas national monuments or national parks, which heavily restrict human activity. Whether it is federal intrusion in private land or the presidential election, a national strategy of education to create an informed electorate is the key to taking back the country. The answer does not reside in capturing the presidency, but consists of educating voters in order to elect honorable men and women who will uphold their oath of office to support and defend the Constitution.
