JBS CEO Art Thompson's weekly news video update for April 6 - 12, 2015.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses how school administrator/teacher cheating on student test results like in Atlanta is now 'normal'; how the National Constitution Center has published a new article calling into question the arguments commonly used by Article V convention proponents; how Pakistan has become China's biggest customer for military hardware, calling into question American reliance on Pakistan in the War on Terrorism; how a political battle is ramping up over the negotiations for a new agreement between the United States and Iran; and how congressional leaders have family and organizational ties that compromise their involvement in U.S. foreign policy and the creation of trade partnerships.
