JBS CEO Art Thompson's weekly news video update for August 19 - 25, 2013.

In this week's analysis behind the news video, JBS CEO Art Thompson discusses how U.S. pressure has failed to sway Egypt's leaders; how the same U.S. leaders that are giving us socialism at home can be counted on to work for socialism abroad also; how we are a republic, not a democracy; how the American government is involved in "regime change" all over the globe with the net effect of more militant and "democratic" regimes that end up being dictatorships; how we're helping al Qaeda come to power in various nations; how our government is using the war on terror to justify surveillance of the entire world; and how we need to have enough righteous indignation over these matters to motivate us to join organizations to fight the above problems.
