JBS CEO Art Thompson's weekly news video update for June 22 - 28, 2015.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses how members of Congress have received a TPA sourcebook from Majority Whip Scalise that provides talking points they can use to convince their constituents that Trade Promotion Authority (TPA) is good for America; how material is copied and pasted from this TPA book into the emails you get from your congressmen when you contact them in opposition to TPA; how most of the information in the TPA book originated from the Business Roundtable and their affiliates; how the Business Roundtable is led by a member of the Council on Foreign Relations, the New World Order crowd; how Republican congressmen who have voted against TPA are being told by their party that they will be facing a primary challenger in the next elections; how it's contradictory to be working on passing a TPA bill to make it easier to pass trade deals that are supposed to create many new jobs, and at the same time to be working on a Trade Adjustment Assistance (TAA) bill to help retrain the many people who will lose jobs from the new trade deals; how all of the confusing aspects of the current debate over TPA, the Trans-Pacific Partnership (TPP), and the Transatlantic Trade and Investment Partnership (TTIP) only make sense when it is understood that a conspiracy wants a New World Order (a one-world government) under socialism led by a triumvirate of the United States, China, and Russia; and how the only solution is to follow Jefferson's advice to bind our leaders down from mischief by the chains of the Constitution.
