JBS CEO Art Thompson's weekly news video update for Sept. 21 - 27, 2015.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses how up to 35 million people from the Middle East could end up migrating into Europe; how such migrations change society and governments; how this migration crisis will empower the European Union to solve it; how a similar migration crisis in North America is being used to empower a North American Union; how the United States government is cooperating with the United Nations to accept large numbers of Middle Eastern migrants to take some pressure off Europe; and how wolves are being reintroduced into Europe just as is happening in the United States with all of the same problems of large-scale destruction of domestic animals and wildlife herds.
