JBS CEO Art Thompson's weekly news video update for July 6 - 12, 2015.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses how an article in last Friday's Wall Street Journal, "Europe's Crowning Glory Imperils Postwar Project," confirms what The John Birch Society has been saying about the European Union (EU) for decades; how this article confirms that the European Union project began back in the 1950s; how the crowning glory of the EU is the "euro"; how Greece has just voted against an austerity program; how the Federal Reserve has already been bailing Europe out with currency exchanges; how the EU will eventually be ruled from Moscow; and how patriots shouldn't be disheartened over the events of the past week, but should simply say, "I'm going to do more," and then get others to join them in "getting to work."
