JBS CEO Art Thompson's weekly news video update for Oct. 12 - 18, 2015.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses how Rep. Paul Ryan, who was trained at the Aspen Institute, is not a good choice for Speaker of the House; how advocates of the TPP and TTIP trade agreements have been promoting these agreements as a way to counter China when actually the TPP is designed to eventually morph into a Free Trade Area of the Asia Pacific (FTAAP) which would include China as a member along with the the United States and the other 11 TPP nations (for further information see "Trans-Pacific Partnership to Facilitate U.S.-China Merger" at link shown below); how the Nobel Peace Prize was awarded again to socialists; and how a communist official has just been named premier of Nepal.
