JBS CEO Art Thompson's weekly news video update for June 8 - 14, 2015.

In this week's Analysis Behind the News video, JBS CEO Art Thompson discusses how you can tell whether American jobs are being lost due to so-called free trade agreements; how these "free trade" agreements are controlling more and more of our banking system; how all these foreign entanglements are creating an integration of economies around the world to be ruled at the top by the international commissions that are being created by the various trade pacts, such as the Trans-Pacific Partnership (TPP) and the Transatlantic Trade and Investment Partnership (TTIP), that are being negotiated right now; how Senator Sessions of Alabama sent a letter to President Obama that raises an excellent question about the role of the Trans-Pacific Partnership Commission and whether it would supersede our Constitution; and how we should ask the question of who is behind the expansion of ISIS.
